

SERVUS RUBBER PLANT MERITS ARE OUTLINED

Children's Mass Meeting Heard Civic Engineer's Estimate of Benefits of New Enterprise.

"Find something for which there is a proper demand, locate it in a proper buying radius, having the necessary transportation facilities, place practical proven business men with a history of achievement in the particular field which that business covers, and you have the ideal combination which history proves has made industrial enterprises such astounding successes," said W. J. Fitzgerald, "civic engineer," Chicago, addressing a mass meeting of citizens in the Rock Island club last night.

that every one of these essential qualifications is found in the Servus Rubber company which is soon to advertise for bids for the erection of the first unit of its Rock Island plant.

The point was stressed in Mr. Fitzgerald's address that the enterprise is a Rock Island enterprise, and that every brick laid in the construction of the factory, every pound of machinery, and every carload of goods shipped, would be a reminder to the residents of the city that agencies which make for success are working for them.

Favor Constructive Forces.

Referring to the World war, and the plea made by the United States government to citizens to loan all the money they could afford to build engines of destruction, Mr. Fitzgerald said that "we have now returned to the arts of works of peace, and that constructive, not destructive, forces are at work. The same call of patriotism is heard now, but it is bidding each to do his bit in the work of reconstruction that the days of happiness, peace and plenty may be hastened."

Emphasis was laid upon the fact

that the organizers of the Servus Rubber company are not asking for contributions, but that they are calling upon the civic pride of Rock Island to know whether its spirit is progressive, "and are offering an opportunity of securing an enterprise which shall be a monument to your industrial activity."

The history of investments, Mr. Fitzgerald affirmed, shows that the greatest return for the money originally invested has come from industrial enterprises.

Adams Gives Talk.

J. J. Burgess, president of the Chamber of Commerce, presided and introduced Judson J. Adams, president of the Servus Rubber company, who told briefly of the formation and success of several large rubber footwear plants, stating that in many instances their beginning was on a smaller scale than the Servus Rubber company.

The one difference, Mr. Adams affirmed, between the Servus Rubber company and others is, that Servus Rubber is selling common stock as well as preferred, at the beginning of its business career, giving the stockholders an opportunity of benefitting in the large profits which are anticipated.

SPEEDER AND WILD DRIVER ARE FINED

Fred Lisdale was fined \$5 in police court last night for exceeding the speed limit with his automobile.

F. W. Hents, arrested for careless and reckless driving, paid a \$5 fine and the costs assessed by Justice J. P. Kelly last night in police court.

PEDDLERS DISMISSED.

Charged with peddling without a license, W. F. Foley, Clinton, Iowa, and P. E. Chapman, Rock Island, were arraigned in police court this morning. Their cases were dismissed.

BARNES HEADS C. OF C.

Washington, May 19.—Julius H. Barnes of Duluth, Minn., was elected president of the Chamber of Commerce of the United States at the annual session.

PICK JURY FOR THIELKE CASE

Rock Island Girl's \$20,000 Damage Claim After Auto Accident Heard.

Jurors in the Davenport district court will decide whether Gertrude Thielke, 3328 Eighth avenue, Rock Island, thrown through the windshield of a speeding automobile can collect damages from the driver of the machine for the loss of her beauty.

Miss Thielke, whose petition recites that she suffered facial injuries Nov. 25, when an auto owned by A. P. Connor, heir to a Hagerstown, Md., fortune, skidded and plunged through a fence, is suing the latter for \$20,000 damages, and the case is now up for trial. Connor, after the accident, was fined \$100 for reckless driving.

Connor is said to have offered

the girl the machine which he drove at the time of the accident, a 1921 model Stutz 5-passenger car in settlement of her claim, but the offer was rejected.

The automobile is now in possession of the Scott county sheriff on a writ of attachment sworn out by the girl's father, E. J. Thielke, who is bringing the suit on behalf of his daughter.

IRISH FARM HAND SPOOFED BY COURT

James Martin, traveling farm hand, picked Rock Island as the site for a hooch party for one guest, himself, yesterday. He spent the night in the city jail.

In police court this morning he was questioned by Justice J. P. Kelly.

"Where were you born?" asked the court.

"In Massachusetts. But my father was born in Ireland."

"Where was your father born?"

"In Massachusetts." But my grandfather and great-grandfather were both born in Ireland.

"Dismissed," said the judge, briefly.

30,000 YARDS OF DIRT IN BIG FILL

Burlington Moves Big Quantity of Earth for New Roundhouse Site.

Officials of the Burlington road, which will shortly erect a new roundhouse at the foot of Thirty-eighth street, immediately west of the Moline-Universal Tractor plant, hope to have the roundhouse operating at an early date this fall.

W. E. Fuller, superintendent of the Galesburg division, said yesterday that the lot would require filling to the extent of at least 30,000 yards. As no plans for the contemplated building have been drawn up, it is impossible to make any announcement of the probable cost of the structure.

A large part of the expense will be incurred by the filling operations. Announcement is made, however, that the roundhouse will be of brick construction and will have an eight-stall capacity.

As soon as the necessary order is received from headquarters, a force of men will be put at work filling up the lot, and it is anticipated that bids for erection will soon be asked for.
